

Dealync – App Overview

Dealync is a smart listing and sharing app designed for property dealers and used car dealers to easily manage, showcase, and promote their listings in one place.

1) 🗝️ Login & User Profile

Users can securely sign up and log in to the app using their mobile number and OTP(One Time Password). Each user can manage their profile by adding their name and business details, which are automatically included in shared PDFs.

2) 🏠🚗 Listing Dashboard:

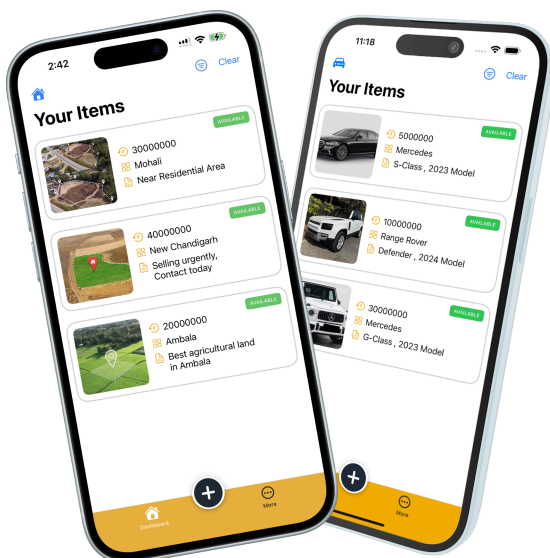

On the home screen, users can view and manage **two main types of listings**:

- **Property listings**
- **Used car listings**

From the dashboard, users can:

- Add new property or car details
- Upload images and media
- View complete details of each listing
- Manage all their active listings in one place

This screen acts as a **central hub** for all selling activities.

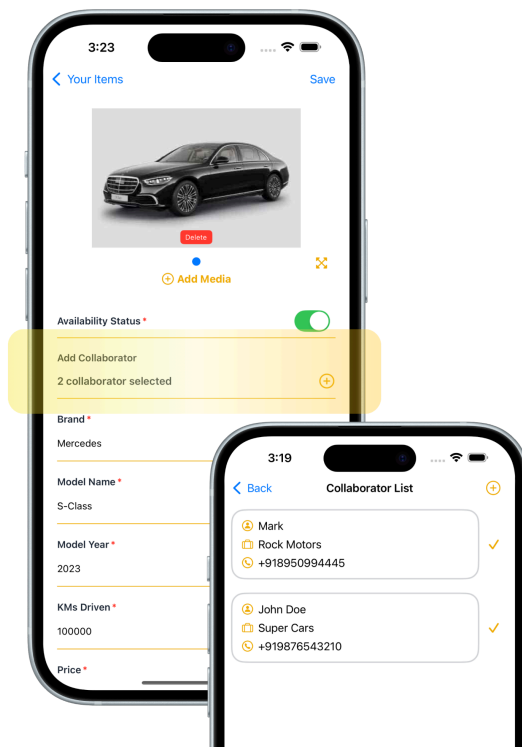

3) 👥 Add Collaborators:

Dealync allows users to **add collaborators** to any listing.

- A collaborator can be a friend, partner, or team member
- Collaborators can view the listing details
- They can help promote and sell the property or car

This feature is especially useful for **dealers working in teams** or with local partners.

4) 📄 ➡️ 📱 Share Listings as Live Link:

The **Live Link feature** allows dealers to share listings with the users and can share on social media too, enabling users to view details and **submit bids**.

Dealers can monitor total **live link views**, directly **contact bidders** through call or send **counter offers via WhatsApp**, and streamline follow-ups using scheduled reminders and predefined messaging templates.

5) Share Listings as PDF:

Users can easily **share listing details as a professional PDF** directly from the app.

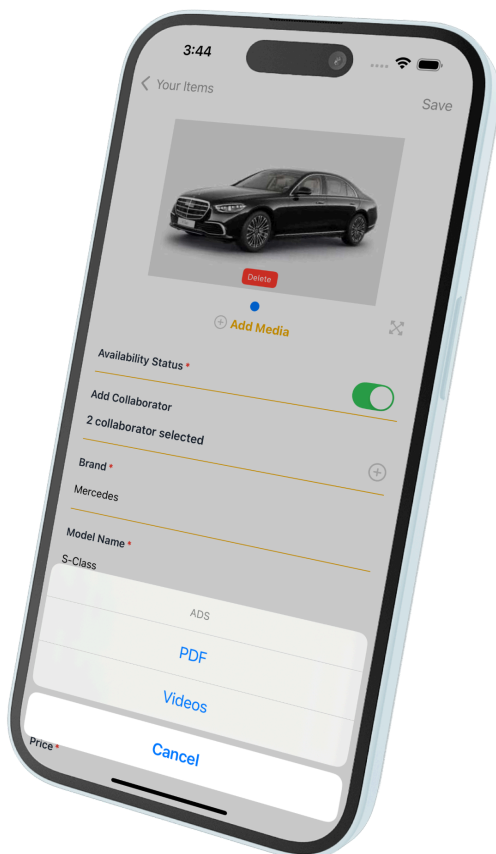

The PDF includes:

- Property or car details
- Images
- Dealer name and business information
- Contact details

The PDF can be shared via:

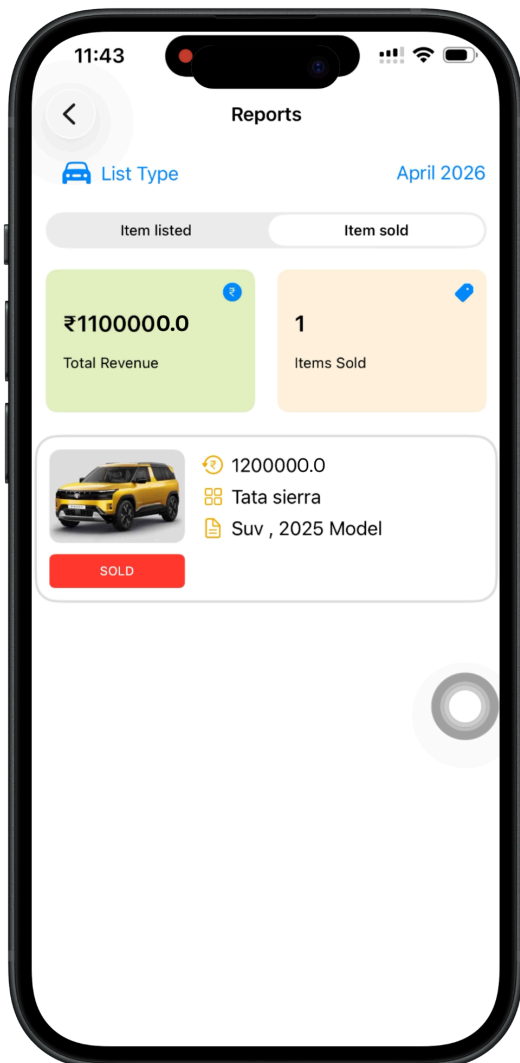

- **WhatsApp** 
- Other messaging and sharing apps

This makes it easy to send complete, well-formatted information to potential buyers instantly.

6) 💰 Reports/Revenue:

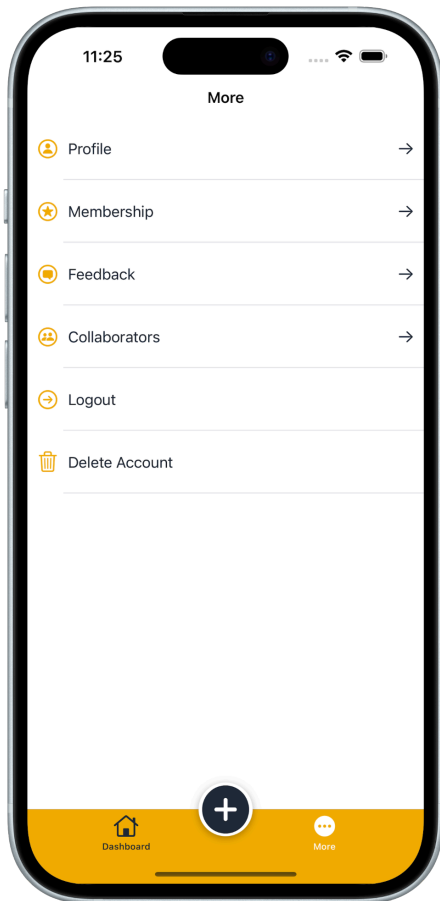

Get a complete overview of your monthly listings, **sales**, **revenue**, and how quickly your cars are selling.

7) ⚙️ More Options & Account Management:

The **More** screen provides access to important account and app-related options:

- **Profile** – View and update personal and business details
- **Membership** – Manage subscription and plan details
